Upon completing my academic career, I have acquired a solid foundation in programming, mathematical and statistical tools, with extensive experience in Python and a solid introduction to Machine Learning. My primary interests lie in environmental and economic sustainability, energy efficiency, green technology, and climate science. I am excited to apply my skills to data-driven solutions in these fields and contribute to innovative projects that promote sustainability and environmental responsibility.

Education

University of Porto - MSc in Computational Statistics and Data Analysis

Sept 2022 – Jul 2024

University of Porto - BSc in Physics

Sept 2017 – Jan 2022

Experience

Personal Sabatical

Jul 2025 - Mar 2026

- Management of personal affairs (5 months): Planned career break to address personal matters.
- Technical collaboration at In-Libris Bookstore (3 months): Period dedicated to developing specialized skills in bookbinding and book conservation, driven by a personal commitment to preserving this craft. Key responsibilities included:
 - Executing artisanal bookbinding, book restoration, and gilding—tasks requiring high levels of patience, creativity, rigor, and meticulous attention to detail.
 - Operating laser engraving technology on various materials, bridging traditional craftsmanship with contemporary bookbinding techniques.
 - Active participation in the logistical organization of cultural events, including workshops, an antiquarian book fair, and a photography exhibition.

Data Analyst @Creative Toys Portugal
Porto, Portugal

Dec 2024 – Jul 2025

- Develop quarterly profitability analyses for products and customers. This process, traditionally performed in Excel, was converted into Python scripts, significantly improving efficiency and reliability, and resulting in a 240-fold increase in speed—from 8 hours to 2 minutes.
- Develop interactive dashboards in Power BI to monitor financial performance KPIs, analyze sales performance, and support the preparation of budgets and financial reports.
- Assisted in budgeting and income statement preparation, providing financial insights to the finance department
- Work with the sales and logistics teams to forecast revenue and optimize order fulfillment.
- **Technical Skills:** Python, Microsoft SQL Server, Microsoft Excel, PowerBI, CRM Salesforce, Cegid Primavera

Data Analyst Curricular Internship @FORCERA
Lisbon, Portugal

Oct 2023 – Apr 2024

- Developed a Python-based anomaly detection system for public contracts, using data processing and analysis techniques to identify suspicious contracts
- Built and optimized PostgreSQL queries to efficiently handle large datasets, ensuring accurate data retrieval and performance
- Following Open Contracting Partnership (OCP) guidelines and adapting them to comply with Portugal's Public Contracts Code, developed a framework to flag contracts based on 9 binary risk indicators, each representing a different contract anomaly
- Containerized Python scripts using Docker and deployed them to AWS Elastic Container Registry (ECR) + Automated the execution of the containerized program using AWS Lambda, ensuring scheduled runs without manual intervention
- **Technical Skills:** Python, Linux, GitHub, Docker, PostgreSQL, Cron jobs, AWS Lambda Function, AWS ECR, PowerBI

Tools

Programming: Python, R **Libraries:** Pandas, Numpy, Scipy, Matplotlib, Psycopg2, Streamlit, Plotly

OS: Linux, Windows **SQL Databases:** PostgreSQL, Microsoft SQL Server **Version Control:** GitHub

MS Tools: PowerBI, Microsoft Excel

Languages: Portuguese (Native), English (Fluent), German (A1)
